Earth Science Reports

Vol. 29, No. 1, 2023

CONTENTS

Geology of the Paleogene to Neogene successions
and gentle upwarping of the Kibi Plateau Surface,
surrounding area of Kibichuou Town, Okayama Prefecture, Southwest Japan
Hajime TANAKA, Shigeyuki SUZUKI 1

Summary of our activities toward development of the ESD interdisciplinary study plans
on climate and cultural understanding education
with attention to the seasonal cycle and "seasonal feeling" around Japan and Europe
Kuranoshin KATO, Haruko KATO, Rikako AKAGI 29

Onset time and location of the main rupture of
the 2018 Hokkaido Eastern Iburi, Japan, earthquake
Hirofumi KOWARI, Masanao KOMATSU, Hiroshi TAKENAKA 49

ERRATA

FDM simulation of long-period ground motions around Oita Prefecture, Japan,
using a land-ocean unified 3D structure model
Tatsuya OKUNAKA, Masanao KOMATSU, Hiroshi TAKENAKA,
Masayuki YOSHIMI, Takeshi NAKAMURA, Taro OKAMOTO 65
