Earth Science Reports

Vol. 26, No. 1, 2019

CONTENTS

◆

Computation of non-linear site response by the time-domain finite-difference method
Yusuke TORIGOE, Masanao KOMATSU, Hiroshi TAKENAKA 1

Schistose fault related rocks from the Sangun Metamorphic Rocks,
Kawakita area, Misaki Town, Okayama Prefecture, SW Japan
Mirei MATSUSHITA, Shigeyuki SUZUKI 19

Interdisciplinary ESD lesson study for the university students
with attention to the difference of climate and seasonal feeling in “summer”
among Germany, northern Europe and Japan
Kuranoshin KATO, Haruko KATO, Kazuo OTANI, Kengo MATSUMOTO 25

Synoptic climatological analyses of daily precipitation features and atmospheric fields
in warm season relating to the precipitation difference between Kochi and Okayama
characterizing the Seto Inland Sea Climate in Japan
Kuranoshin KATO, Yuki SUGIMURA, Kengo MATSUMOTO 37
